FALL 1941

Bulbs - Plants - Seeds

EASTER 1942 IS APRIL 5th

We are sorry to have had to delay the issuing of this catalog—but this is a most unusual year.

No Lilies from Japan, and at this writing, no likelihood of any. As a result, the demand for all other bulbs is unusual—and on many the supply is short. However, we are still able to take orders for stock as offered herein—but advise prompt ordering to avoid disappointment. May we suggest permitting us, if necessary, to substitute nearest similar variety or size, although of course, we will not do so without permission.

All stock offered herein is of the highest quality, and from careful and experienced growers.

We hope we may continue to receive and deserve your patronage, as we have in increasing volume for the past forty-five years.
